Sheet: 1

FILTER

Better if
focusing
on one
country
but bad
if whole
world

Not able
to display
multiple
years

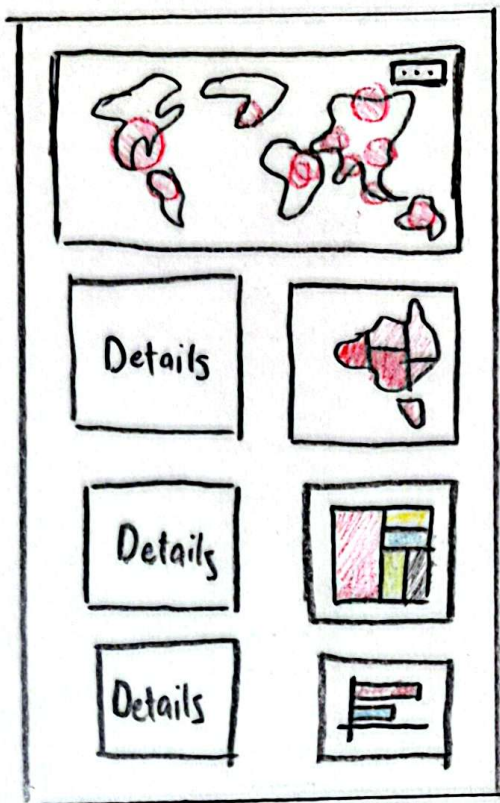

CATEGORISE

QUESTIONS

Does this show how
emissions have increased
year to year?

Does this show comparisons
between emissions of
different countries?

LAYOUT

Author: Anzo Adrien Ariandrie

Date: 20/09/25

Sheet: 2

OPERATIONS

Popup to show
additional details

Focus

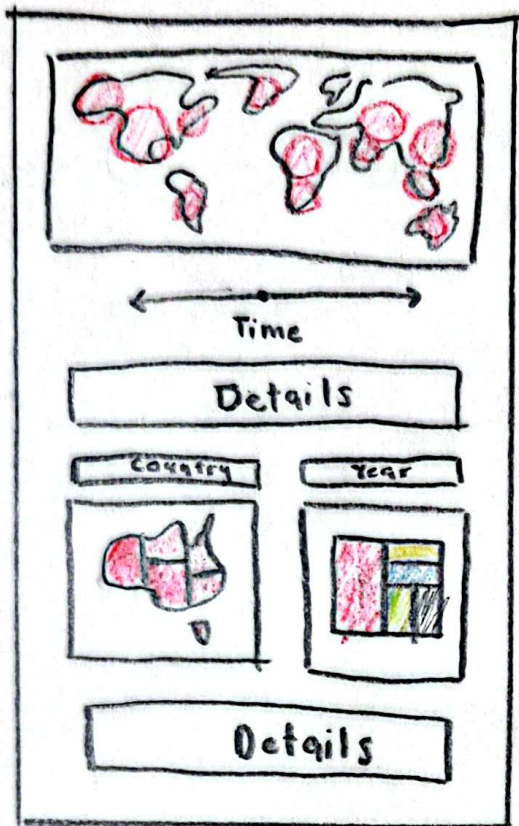

The highlight of this is
the treemap, showing
categories that produce
the most emissions/waste
in Australia

DISCUSSIONS

Only focuses on Australia

Only recent year

LAYOUT

Author: Anzo Adrien Amigahare
Date: 20109125
Sheet: 3

OPERATIONS

Scrollable to move
across time

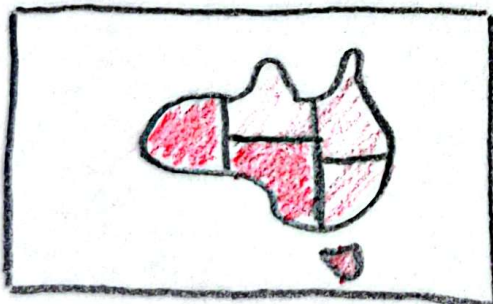

Country

Change highlighted
country...

year

Across different
years

FOCUS

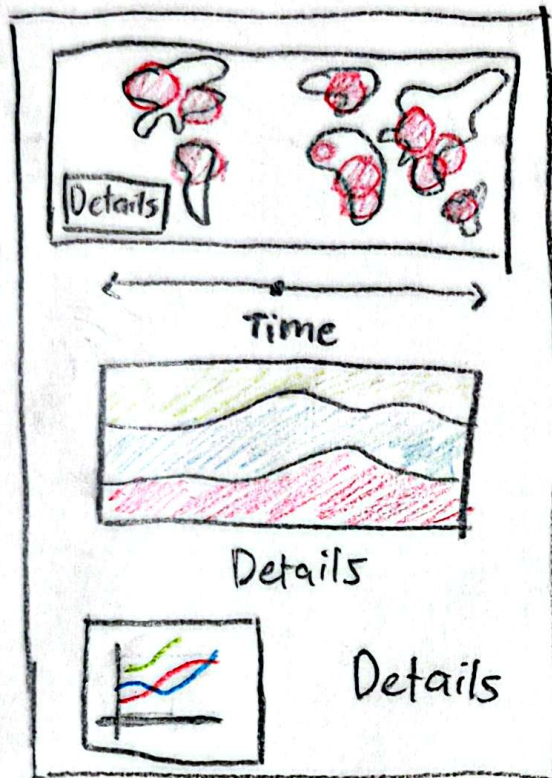

Choropleth map highlights
emissions per region

DISCUSSIONS

Do I have data that
includes all country's
region and year?

LAYOUT

Author: Anzo Adrien Ariandrie
Date: 20/09/25
Sheet: 4

OPERATIONS

Details

either a pop up
or transparent
background overlaid
on the map

FOCUS

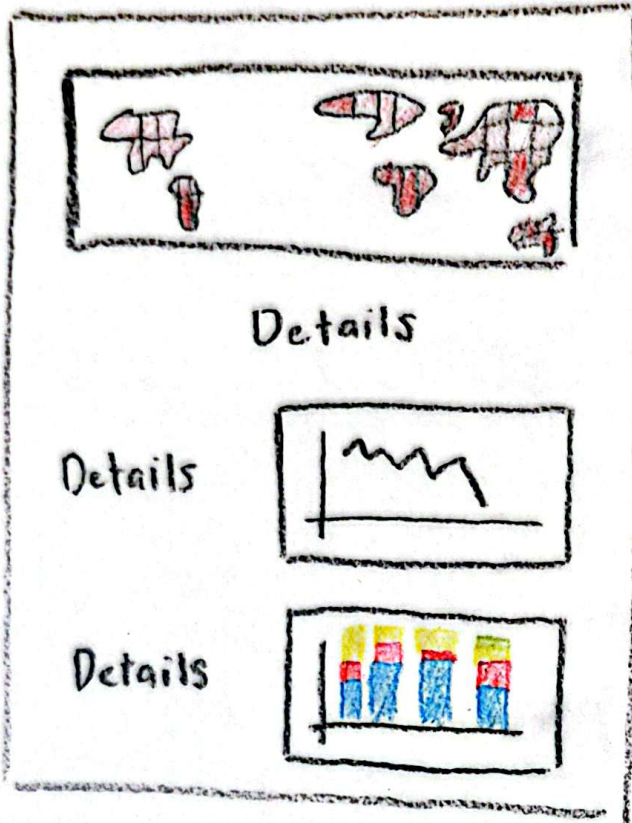

The stacked bar chart focuses
on what industry has the most
emissions across the years

DISCUSSIONS

More focus on
a global scope
Would identify
sectors/causes
of large emissions

Do I have global
or local data

LAYOUT

Author: Anzo Ariandrie

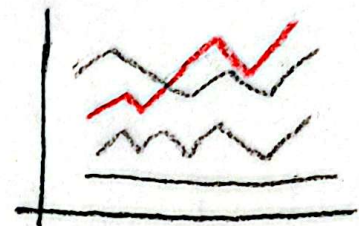

Date: 10/10/25

Sheet: 5

OPERATIONS

highlight
important countries

Electricity

Dropdown to focus on
one sector

FOCUS

Focuses on how emissions
have fallen over the years in
Australia. Are they achieving
their net zero goals?

DETAILS

- Emissions over the years
- Where emissions are being produced
- Temperature changes

Time estimated:

- One day finding datasets
- Three days for vis
- Three days for operations
